

CONTENTS

<i>B. S. Carpenter, S. P. LaMont, S. E. Glover</i> Introduction	5
Activation Analysis: Radioanalytical Methods and Applications to the Life Sciences	
<i>J. S. Morris, R. A. Ngwenyama, J. M. Guthrie, J. D. Brockman, V. L. Spate, J. D. Robertson</i> (Columbia, MO, USA) Quality control in the neutron activation analysis of biological markers for selenium in epidemiological investigations	7
<i>A. N. Berlizov, O. B. Blum, R. H. Filby, I. A. Malyuk, V. V. Tryshyn</i> (Kiev, Ukraine and Pullman, WA, USA) Black poplar-tree (<i>Populus nigra</i> L.) bark as an alternative indicator of urban air pollution by chemical elements	15
<i>D. L. Anderson, W. C. Cunningham</i> (College Park, MD, USA) Compton suppression spectrometry for analysis of short-lived neutron activation products in foods	23
<i>C. Segebade, M. Hedrich, O. Haase, B. Baede</i> (Berlin, Germany) Large sample activation analysis: Monitoring of photovoltaic module recycling using radioanalytical methods	29
<i>C. S. Dunkley, W.-K. Kim, W. D. James, W. C. Ellis, J. L. McReynolds, L. F. Kubena, D. J. Nisbet, S. C. Ricke</i> (College Station, TX, USA) Passage rates in poultry digestion using stable isotope markers and INAA	35
<i>J. M. Guthrie, J. D. Brockman, J. S. Morris, J. D. Robertson</i> (Columbia, MO, USA) The „One Source” cohort – evaluating the suitability of the human toenail as a manganese biomonitor	41
<i>M. A. B. Soares, E. M. Adachi, M. Saiki</i> (São Paulo, SP, Brazil) INAA of enamel and dentine samples of a group of children and adults: A comparative study	49
<i>M. Saiki, E. R. Alves, O. Jaluul, N. M. Sumita, W. Jacob Filho</i> (São Paulo, SP, Brazil) Determination of trace elements in scalp hair of an elderly population by neutron activation analysis	53
<i>J. D. Brockman, J. D. Robertson, J. S. Morris, C. Ralston, L. Raymond, N. Ralston</i> (Columbia, MO and Grand Forks, ND, USA) Nail as a biomarker of selenium and methyl mercury in a rat model	59
<i>C. E. Huntington, S. M. Carleton, D. J. McBride, C. L. Phillips, J. S. Morris</i> (Columbia, MO and Baltimore, MD, USA) Multi-element analysis of bone from the osteogenesis imperfecta model (OIM) mouse using thermal and fast neutron activation analysis	65
<i>R. J. Shypailo, K. J. Ellis</i> (Houston, TX, USA) Prompt-gamma neutron activation analysis system design: Effects of D-T versus D-D neutron generator source selection	71
<i>K. J. Ellis, R. J. Shypailo</i> (Houston, TX, USA) COHN analysis: Body composition measurements based on the associated particle imaging and prompt-gamma neutron activation analysis techniques	79
<i>R. P. Choudhury, R. Acharya, A. G. C. Nair, A. V. R. Reddy, A. N. Garg</i> (Roorkee and Mumbai, India) Availability of essential trace elements in medicinal herbs used for diabetes mellitus and their possible correlations	85
<i>Z. Lamari, S. Landsberger, J. Braisted, H. Neggache, R. Larbi</i> (Draria, France and Austin, TX, USA) Trace element content of medicinal plants from Algeria	95

<i>D. Beasley, I. Gomez-Morilla, N. Spyrou</i> (Guildford, U.K.) Elemental analysis of hair using PIXE-tomography and INAA	101
<i>L. G. C. Santos, E. A. De Nadai Fernandes, F. S. Tagliaferro, M. A. Bacchi</i> (Piracicaba, Brazil) Characterization of Brazilian commercial milks by instrumental neutron activation analysis	107
<i>Kil Yong Lee, Yoon Yeol Yoon, Soo Young Cho, Yongje Kim</i> (Daejeon, Korea) Improving the analytical sensitivity of alpha-emitting impurities in grinding high purity silica	113
<i>A. Ma, J. Awotwi-Pratt, A. Alghamdi, A. Alfuraih, N. M. Spyrou</i> (Guildford and Norwich, U.K.) Monte Carlo study of photoneutron production in the Varian Clinac 2100C linac	119
<i>N. K. Mohammed, J. Mizera, N. M. Spyrou</i> (Guildford, U.K. and Rez, Czech Republic) Elemental contents in hair of children from Zanzibar in Tanzania as bio-indicator of their nutritional status	125
<i>C. E. Huntington, T. L. Veum, J. S. Morris</i> (Columbia, MO, USA) Zinc uptake in swine intestinal brush border membrane vesicles using a $^{65}\text{Zn}/^{69\text{m}}\text{Zn}$ dual isotope experiment	129
Activation Analysis: Environmental Applications and Instrumentation	
<i>A. M. G. Pacheco, M. C. Freitas, M. S. Baptista, M. T. S. D. Vasconcelos, J. P. Cabral</i> (Lisboa, Sacavém and Porto, Portugal) Joint assessment of responses of biomonitors to airborne nickel and vanadium through nuclear and non-nuclear techniques	135
<i>C. C. Chéry, S. Herremans, V. Van Lierde, F. Vanhaecke, M. C. Freitas, R. Jasekera</i> (Ghent, Belgium, Sacavém, Portugal and Kelaniya, Sri Lanka) Ultra-micro trace element contents in spices from Sri Lanka	143
<i>M. C. Freitas, A. M. G. Pacheco, M. A. Bacchi, I. Dionísio, S. Landsberger, J. Braisted, E. A. N. Fernandes</i> (Sacavém and Lisboa, Portugal, Piracicaba, SP, Brazil and Austin, TX, USA) Compton suppression instrumental neutron activation analysis performance in determining trace- and minor-element contents in foodstuff	149
<i>C. Olson, S. Landsberger, J. Braisted</i> (Los Alamos, NM and Austin, TX, USA) Neutron activation analysis of aerosolized sodium chloride to simulate size-fractionation of Pu in a glovebox	157
<i>S. M. Almeida, M. C. Freitas, C. A. Pio</i> (Sacavém, Portugal) Neutron activation analysis for identification of African mineral dust transport	161
<i>G. Steinhauser, W. Hujer, J. H. Sterba, R. Seemann, M. Bichler, N. Symeonidis</i> (Vienna, Austria and Athens, Greece) On strontium and barium anomalies in the sediments of Charkadio Cave (Tilos Island, Dodekanese, Greece)	167
<i>J. H. Sterba, G. Steinhauser, M. Bichler</i> (Vienna, Austria) Cation-exchange properties of pumice: Taking a sip from a volcanic cocktail	175
<i>L. Wielopolski, S. Mitra, O. Doron</i> (Upton, NY and Austin, TX, USA) Non-carbon-based compact shadow shielding for 14 MeV neutrons	179
<i>O. Doron, L. Wielopolski, S. Biegalski</i> (Austin, TX and Upton, NY, USA) Advantages of mesh tallying in MCNP5 for soil analysis calculations	183

<i>Yoon Yeol Yoon, Chul Soo Kim, Dong Yoon Yang, Wook Hyun Nahm, Soo Young Cho, Kil Yong Lee</i> (Daejeon, Korea) Distribution of environmental radionuclides in sediment cores of the Jinheung catchment	187
<i>S. Landsberger, A. Massicotte, J. Braisted, S. Gong</i> (Austin, TX, USA and Toronto, Ontario, Canada) Determination of cadmium in Arctic air filters by epithermal neutron activation analysis and Compton suppression	193
<i>D. L. Dugan, R. H. Filby, J. T. Elliston, P. T. Buckley, C. S. Claiborn</i> (Pullman, WA and Lewiston, ID, USA) Neutron activation analysis of air-filters collected in Spokane, WA	199
<i>D. C. Glasgow</i> (Oak Ridge, Tennessee, USA) Delayed neutron activation analysis for safeguards	207
<i>Y. Hatsukawa, Y. Miyamoto, T. Hayakawa, Y. Toh, A. Kimura, M. Oshima</i> (Tokai, Ibaraki, Japan) Measurements of presolar grain in meteorite using neutron activation analysis with multi-parameter coincidence method	213
<i>Y. Toh, M. Oshima, M. Koizumi, A. Kimura, Y. Hatsukawa</i> (Tokai, Ibaraki, Japan) Development of multiple prompt gamma-ray analysis	217
<i>E. J. De França, E. A. De Nadai Fernandes, M. A. Bacchi, C. Elias</i> (Piracicaba, SP, Brazil) Atlantic Forest: A natural reservoir of chemical elements	221
Activation Analysis: Speciation and Preconcentration	
<i>G. P. Westphal, F. Grass, M. Kuhnert</i> (Vienna, Austria) Automatic NAA: Saturation activities	229
<i>P. Vermaercke, P. Robouch, L. Sneyers, F. De Corte</i> (Mol, Geel and Gent, Belgium) Using synthetic multi-element standards (SMELS) for calibration and quality control of the irradiation facilities in the BR1 reactor	235
<i>R. L. Paul</i> (Gaithersburg, MD, USA) Determination of sulfur in steels by radiochemical neutron activation analysis with liquid scintillation counting	243
<i>W. Goerner, O. Haase, M. Ostermann, Chr. Segebade</i> (Berlin, Germany) Instrumental analysis of phosphorus in organic material using high energy beta-counting after photoactivation (IPAA)	251
<i>S. M. Whitney, R. G. Downing, S. Biegalski, D. S. O'Kelly</i> (Austin, TX, USA) Advancement of light-element neutron depth profiling at the University of Texas	257
<i>D. R. Reinert, S. R. Biegalski</i> (Austin, TX, USA) Neutron activation experiments for bremsstrahlung characterization studies	263
<i>T. Belgya, K. Lázár</i> (Budapest, Hungary) First experiments on a new in-beam Mössbauer spectroscopy station at the Budapest Research Reactor	269
<i>D. L. Perry, G. A. English, R. B. Firestone, K.-N. Leung, G. Garabedian, G. L. Molnár, Zs. Révay</i> (Berkeley and Livermore, CA, USA and Budapest, Hungary) Analyses of oxyanion materials by prompt gamma activation analysis	273
<i>T. Green, S. Biegalski, S. O'Kelly, G. Sayre</i> (Austin, TX, USA) Neutron energy spectrum determination and flux measurement using MAXED, GRAVEL, and MCNP for RACE experiments	279
