

CONTENTS

QA/QC and Radiological Emergency Response Measurements

<i>L. A. Currie</i> (Gaithersburg, MD, USA) On the detection of rare, and moderately rare, nuclear events	285
<i>D. Calmet, M. Herranz, R. Idoeta</i> (Bruyères-le-Châtel, France and Bilbao, Spain) Characteristic limits in radioactivity measurement: From Currie's definition to the international standard ISO-11929 publication	299
<i>K. A. Mathews, D. W. Gerts</i> (Wright-Patterson, OH, USA) Bayesian analysis for very-low-background counting of short-lived isotopes: Lowest minimum detectable quantity	305
<i>W. E. Potter, J. Strzelczyk</i> (Sacramento, CA and Denver, CO, USA) Computer code for detection limits and type II errors with unequal sample and blank counting times	313
<i>W. C. Cunningham, D. L. Anderson, W. H. Lamont, P. K. South, M. A. Rury, G. M. Beachley, J. M. Ondov</i> (College Park, MD, USA) Development of a transportable system for radionuclide analysis	317
<i>H. Kurosaki, R. Radford, J. Filliben, K. G. W. Inn</i> (Gaithersburg, MD and Santa Barbara, CA, USA) An orthogonal design of experiment/exploratory data analysis for plutonium contamination	323
<i>I. Outola, J. Filliben, K. G. W. Inn</i> (Gaithersburg, MD, USA) Searching a robust reference value from intercomparison exercise data: Seaweed radionuclide Standard Reference Material (SRM4359)	329
<i>S. Pommé, J. Camps, R. Van Ammel, J. Paepen</i> (Geel, Belgium) Protocol for uncertainty assessment of half-lives	335
<i>P. Smolander, S. Kuukankorpi, M. Moring, H. Toivonen</i> (Helsinki, Finland) In-field management of spectrometric data in radiological threat and emergency	341
<i>E. C. Nielsen</i> (Las Vegas, NV, USA) Radioanalytical data quality objectives and measurement quality objectives during a Federal Radiological Monitoring and Assessment Center response	347
<i>S. M. Jerome, S. M. Judge</i> (Teddington, Middlesex, UK) Accreditation to ISO 17025:2005 for the Radioactivity Metrology Group of the UK's National Physical Laboratory	353
<i>A. Tovedal, U. Nygren, H. Ramebäck</i> (Umeå, Sweden) Determination of ⁹⁰ Sr in preparedness: Optimization of total analysis time for multiple samples	357
<i>P. P. Bachelor, J. I. Friese, C. E. Aalseth, J. I. McIntyre, H. S. Miley, R. W. Perkins, G. A. Warren</i> (Richland, WA, USA) Prompt determination of evacuee radiation dose from a nuclear event	363
<i>A. Plionis, D. Haas, S. Landsberger, G. Brooks</i> (Austin, TX and Los Alamos, NM, USA) A robust, field-deployable method for the electrodeposition of actinides	369
<i>K. G. W. Inn, J. J. Filliben, J. Dahlgran</i> (Gaithersburg, MD and Idaho Falls, ID, USA) Draft radioanalytical water and soil performance testing: Uncertainty acceptance criteria derived from historical mixed-analyte performance evaluation program results	375

<i>K. G. W. Inn, E. Hall, J. T. Woodward IV, B. Stewart, R. Pollanen, L. Selvig, S. Turner, I. Outola, S. Nour, H. Kurosaki, J. LaRosa, M. Schultz, Z. Lin, Z. Wu, C. McMahon</i> (Gaithersburg, MD, Rochester, NY and Carlsbad, NM, USA, Helsinki, Finland, Boise, ID, Iowa City, IA and Winchester, MA, USA and Dublin, Ireland)	Use of thin collodion films to prevent recoil-ion contamination of alpha-spectrometry detectors	385
Application of Nuclear Techniques to National Security and Treaty Monitoring		
<i>G. Le Petit, P. Armand, G. Brachet, T. Taffary, J. P. Fontaine, P. Achim, X. Blanchard, J. C. Piwowarczyk, F. Pointurier</i> (Bruyères-le-Châtel, France)	Contribution to the development of atmospheric radionuclide monitoring	391
<i>R. M. Keyser, W. Hensley, T. R. Twomey, D. L. Upp</i> (Oak Ridge, TN and Richland, WA, USA)	Comparison of MCNP and experimental measurements for an HPGe-based spectroscopy portal monitor	399
<i>K. M. Foltz Biegalski, S. R. Biegalski, D. A. Haas</i> (Austin, TX, USA)	Performance evaluation of spectral deconvolution analysis tool (SDAT) software used for nuclear explosion radionuclide measurements	407
<i>D. K. Smith, M. J. Kristo, S. Niemeyer, G. B. Dudder</i> (Livermore, CA and Richland, WA, USA)	Documentation of a model action plan to deter illicit nuclear trafficking	415
<i>M. L. Woodring, J. H. Ely, L. K. Angel, I. H. Wright, M. A. Eslinger, A. J. Pospical, J. E. Ellis</i> (Richland, WA, USA)	Gamma-ray signatures for state-of-health analysis and monitoring of widely-arrayed radiation portal monitor systems	421
<i>K. J. Hofstetter, D. M. Beals, D. M. Odell, R. F. Eakle, R. K. Huffman, L. J. Harpring</i> (Aiken, SC, USA)	Multi-point radiation monitor	429
<i>K. J. Hofstetter, D. M. Beals, D. M. Odell</i> (Aiken, SC, USA)	Uranium detection using small scintillators in a maritime environment	433
<i>S. Biegalski, O. A. Ezekoye, M. Pickering, J. M. Peña, S. Waye</i> (Austin, TX and Arlington, VA, USA)	Detection limit improvements forecasted at CTBTO IMS radionuclide stations based on size separation of aerosols by aerodynamic diameter	441
<i>S. M. Robinson, E. R. Siciliano, J. E. Schweppe</i> (Richland, WA, USA)	Source injection distribution functions for alarm algorithm testing	447
<i>P. A. Aarnio, J. J. Ala-Heikkilä, T. T. Hakulinen</i> (Helsinki and Espoo, Finland)	Performance of UNISAMPO–SHAMAN with gamma-ray spectra containing known traces of fission products	455
<i>F. Padoani, L. Cella, X. Shen, R. Werzi</i> (Vienna, Austria)	Testing and provisional operation of the IMS radionuclide monitoring network	461
<i>L. Tandon, E. Hastings, J. Banar, J. Barnes, D. Beddingfield, D. Decker, J. Dyke, D. Farr, J. FitzPatrick, D. Gallimore, S. Garner, R. Gritzo, T. Hahn, G. Havrilla, B. Johnson, K. Kuhn, S. LaMont, D. Langner, C. Lewis, V. Majidi, P. Martinez, R. McCabe, S. Mecklenburg, D. Mercer, S. Meyers, V. Montoya, B. Patterson, R. A. Pereyra, D. Porterfield, J. Poths, D. Rademacher, C. Ruggiero, D. Schwartz, M. Scott, K. Spencer, R. Steiner, R. Villarreal, H. Volz, L. Walker, A. Wong, C. Worley</i> (Los Alamos, NM, USA)	Nuclear, chemical, and physical characterization of nuclear materials	467
<i>E. P. Hastings, C. Lewis, J. FitzPatrick, D. Rademacher, L. Tandon</i> (Los Alamos, NM, USA)	Characterization of depleted uranium oxides fabricated using different processing methods	475
<i>H. S. Miley, T. W. Bowyer, L. R. Greenwood, R. J. Arthur</i> (Richland, WA, USA)	Fission product ratios as treaty monitoring discriminants	483

Mass Spectrometric Methods for the Determination of Ultra Trace Actinides

- O. T. Farmer III, K. B. Olsen, M. L. Thomas, S. J. Garofoli* (Richland, WA, USA)
Analysis of IAEA environmental samples for plutonium and uranium by ICP/MS in support of international safeguards 489
- M. D. Engelmann, L. A. Metz, J. E. Delmore, M. Engelhard, N. E. Ballou* (Richland, WA and Idaho Falls, ID, USA)
Electrodeposition of technetium on platinum for thermal ionization mass spectrometry (TIMS) 493
- D. W. Efurud, R. E. Steiner, S. P. LaMont, D. Lewis* (Los Alamos, NM, USA)
History of the plutonium bioassay program at the Los Alamos National Laboratory, 1944–2006 499
- F. Pointurier, A. Hubert, N. Baglan, P. Hémet* (Bruyères-le-Châtel, France)
Evaluation of a new generation quadrupole-based ICP-MS for uranium isotopic measurements in environmental samples 505
- N. E. Bores, M. K. Schultz, J. M. Rankin, A. J. Denton, G. F. Payne, R. E. Steiner, S. P. LaMont, S. B. Ortiz* (Oak Ridge, TN, Iowa City, IA and Los Alamos, NM, USA)
Evaluation of measurements of ^{238}Pu , ^{239}Pu and ^{240}Pu in urine at the microbecquerel level using thermal ionization mass spectrometry and alpha-spectrometry at Los Alamos National Laboratory: Results of a two year comparison test (LA-UR-06-8055) 513

Separation Chemistry and Target Preparation for Nuclear Chemistry Experiments

- W. Loveland* (Corvallis, OR, USA)
Radiochemistry as a tool in RIB studies 519
- D. C. Hoffman* (Berkeley, CA, USA)
Atom-at-a-time studies of the transactinide elements 525
- J. M. Schwantes, W. A. Taylor, R. S. Rundberg, D. J. Vieira* (Los Alamos, NM, USA)
Preparation of a one-curie ^{171}Tm target for the detector for advanced neutron capture experiments (DANCE) 533
- J. M. Schwantes, R. Sudowe, H. Nitsche, D. C. Hoffman* (Richland, WA, Las Vegas, NV and Berkeley, CA, USA)
Applications of solvent extraction in the high-yield multi-process reduction/separation of Eu from excess Sm 543
- E. M. Bond, S. Glover, D. J. Vieira, R. S. Rundberg, G. Belier, V. Meot, D. Hynek, Y. Jansen, J. Becker, R. Macri* (Los Alamos, NM and Cincinnati, OH, USA, Bruyères-le-Châtel and Is-sur-Tille, France and Livermore, CA, USA)
Preparation of $^{235\text{m}}\text{U}$ targets for $^{235}\text{U}(n, n')^{235\text{m}}\text{U}$ cross section measurements 549
- J. D. Baker, C. A. McGrath, T. S. Hill, R. Reifarh, F. Tovesson* (Idaho Falls, ID and Los Alamos, NM, USA)
Actinide targets for neutron cross section measurements 555
- J. R. FitzPatrick, E. Bond, A. Slemmons, D. Vieira* (Los Alamos, NM, USA)
Preparation of americium targets for nuclear chemistry experiments at DANCE 561
